Betsy Bejarano

betsybejarano2028@u.northwestern.edu · Evanston, IL

EDUCATION

Northwestern University | Evanston, IL · Expected June 2028
Bachelor of Science — Civil Engineering
Relevant Coursework: Design Thinking and Communication I and II; Multivariable Calculus; Linear Algebra; Statics; System Dynamics; Mechanics of Materials; Differential Equations and Modeling (in progress)

TECHNICAL SKILLS

Software: AutoCAD, MATLAB, Python, Microsoft 365, Google Workspace
Languages: Spanish (Native), English (Native)

PROFESSIONAL EXPERIENCE

Community Engagement & Development Intern | Maxwell Street Community Garden, Chicago, IL · **June–August 2026**
- Researched 50 grant opportunities and potential funding sources to support community programs and organizational initiatives.
- Developed marketing and outreach materials, including social media content, event flyers, and newsletters.
- Supported community events and nonprofit initiatives, collaborating with staff and local organizations to strengthen community engagement.

Customer Service Representative | Henry Crown Sports Pavilion and Blomquist Gymnasium, Evanston, IL · **September 2026–Present**
- Assist 25+ patrons per shift while enforcing facility safety policies in a high-traffic athletic facility.

LEADERSHIP & CAMPUS INVOLVEMENT

Association of Latino Professionals for America (ALPFA) | Social Chair · April 2026–Present
- Plan and coordinate social events that strengthen Latino community connections and foster an inclusive environment for students across all academic majors.
- Develop engaging activities and coordinate event logistics, including supply purchasing, while adhering to assigned budgets.

Society of Hispanic Professional Engineers (SHPE) | SHPEtina Director · April 2026–Present
- Lead the SHPEtina committee in building a supportive community for women within SHPE and organizing committee initiatives.
- Facilitate meetings and delegate responsibilities for event planning, social media promotion, supply purchasing, and event setup.

Engineers for a Sustainable World | Co-PR Chair · March–June 2026
- Co-led public relations initiatives and managed social media content to strengthen the organization's sustainability-focused engineering work.
- Developed creative content and outreach strategies that doubled social media engagement during the organization's active period.

ENGINEERING PROJECTS

American Society of Civil Engineers (ASCE) – Bridge Design Projects | Northwestern University · **October 2026–Present**
- Collaborate with a 15-member team to design a 22–23 ft steel bridge for the 2027 ASCE Student Steel Bridge Competition, meeting strict limits on member size, clearances, and bolted connections.
- Design a 3D-printed PLA bridge with a 24 in clear span for the 2027 ASCE 3D Printing Competition, optimizing strength-to-weight ratio, stiffness, and assembly time.

Student Entrepreneur Residency | The Garage at Northwestern University · **March–June 2025**
- Selected for a competitive, quarter-long student entrepreneur residency focused on prototype development and venture exploration.
- Advanced a rapid-development oxygen regulator prototype, initially developed for a class project in collaboration with a nurse at Ann & Robert H. Lurie Children's Hospital of Chicago.
